

Build trust first. Convert second.

The Pay by Bank campaign educates high-risk merchants on the true cost of card processing and positions Aryze as a faster, cheaper and more reliable account-to-account payment infrastructure partner.

Owner: Marketing • April-May 2026 • Internal

THE CAMPAIGN IN ONE LINE

Educate high-risk merchants on the true cost of card processing, then position Aryze as a faster, cheaper and more reliable account-to-account payment infrastructure partner.

PRIMARY OUTCOME

Qualified inbound demand — demo bookings, free setup sign-ups and warmer commercial conversations.

DURATION

6 weeks

Weeks 16-21.

AUDIENCE

High-risk

iGaming, crypto, marketplaces.

OFFER

50 free setup places

Free setup sign-up as the conversion step.

CORE CHANNELS

4 channels

SEO, LinkedIn, email, event.

Lead generation through education and credibility.

High-risk merchants often pay materially more for card processing through fees, failed payments, reserves, chargebacks and FX friction. The campaign makes that cost visible, then presents Pay by Bank as the direct, regulated and operationally simpler alternative.

ICP

iGaming operators, crypto exchanges and online marketplaces. Decision-makers with payment pain, complex settlement needs and high cost sensitivity.

Positioning

"Danish-built payment infrastructure for serious merchants." Regulatory seriousness, network reliability and operational clarity are the trust anchors.

Conversion

The path runs from education to a demo or setup conversation. Every asset carries a next step: demo, webinar, roundtable or free setup sign-up.

Each channel has a specific job.

SEO / BLOG

Own the education layer

Publish explainers around Pay by Bank, card-cost pain and high-risk merchant payment flows.

LINKEDIN

Build visible authority

Use organic posts, sponsored reach and founder/team content to reach ICP decision-makers.

BREVO

Nurture and convert

Use newsletter and email flows to move readers toward demo calls, event attendance and setup.

EVENTS

Create qualified conversations

Use roundtables, conference anchors and themed moments such as Bitcoin Pizza Day.

Six-week execution rhythm.

WEEK	THEME	ACTIVITY
Week 16	Launch education base	Publish "What is Pay by Bank?" and launch announcement posts.
Week 17	Explainer and newsletter	Carry core blog into short-form video, LinkedIn and Brevo newsletter.
Week 18	Deepen authority	Publish the complete guide and connect content to demo and setup CTAs.
Week 19	Event and roundtable push	Drive attendance and direct conversations with ICP decision-makers.
Week 20	Video and recap assets	Use explainer video, social recap and newsletter to compress learning into action.
Week 21	Wrap-up and conversion	Package campaign assets, push demo CTA and identify the strongest commercial leads.

Keep spend focused on reach, moments and conversion assets.

Most production is handled in-house. Paid spend stays targeted: LinkedIn reach for ICPs, roundtable execution, free setup conversion and conference/event anchors.

ITEM	BUDGET / STATUS
LinkedIn sponsored posts	DKK 1,000-1,500
Roundtable at Aryze CPH office	TBC
Free setup offer	50 merchants
